

DOT Program Readiness Checklist

A practical starting checklist for Employers, Owner-Operators and C/TPAs preparing a DOT program workspace.

Program setup

1	Identify the DOT agency or agencies that regulate the workforce.	☐
2	Confirm which employees or drivers perform safety-sensitive functions.	☐
3	Document the company, location and DER / supervisor contacts responsible for the program.	☐

Testing operations

1	Confirm testing reasons and ordering workflows used by the organization.	☐
2	Review random pool participation, eligibility and selection procedures.	☐
3	Confirm how results, documents and follow-up actions will be stored and reviewed.	☐

Recordkeeping

1	Create a standard location for policy acknowledgments and program documents.	☐
2	Confirm reporting responsibilities and recurring review dates.	☐
3	Assign ownership for open compliance tasks and expiring items.	☐

Use note: This worksheet is an operational aid and does not replace agency rules, legal advice, or your organization's compliance procedures.
