

Random Testing Program Checklist

A planning worksheet for setting up and reviewing a DOT random testing program.

Eligibility

1	Identify the regulated population that belongs in the random pool.	☐
2	Document employee / driver additions, removals and status changes.	☐
3	Confirm the pool is current before each selection event.	☐

Selection workflow

1	Document selection date and eligible population.	☐
2	Preserve selected employee / driver records and testing reason.	☐
3	Track completion status and exceptions.	☐

Review

1	Reconcile completed testing against selections.	☐
2	Retain supporting reports and selection history.	☐
3	Review agency-specific annual rate requirements.	☐

Use note: This worksheet is an operational aid and does not replace agency rules, legal advice, or your organization's compliance procedures.
